APPAM 2017 Mentor Matching Program

Scott W. Allard, PhD, Professor – MATCHED
Daniel J. Evans School of Public Policy and Governance, University of Washington

Scott W. Allard joined the Evans School of Public Policy and Governance at the University of Washington as a professor of public affairs in 2014. Allard is a nonresident senior fellow at the Brookings Institution’s Metropolitan Policy Program and co-primary investigator of the Family Self-Sufficiency Data Center at the University of Chicago, a research affiliate of the National Poverty Center at the University of Michigan and of the Institute for Research on Poverty at the University of Wisconsin-Madison. His primary areas of research expertise are urban poverty, employment among low-skill workers, food security, safety net utilization, and the spatial accessibility of governmental and nongovernmental safety net programs. He is working with the Michigan Recession and Recovery Study—a panel survey of households in metropolitan Detroit—to examine how working poor families are coping in a persistently sluggish regional economy. He also is a co-investigator with the Seattle Minimum Wage Study, which is a multi-faceted evaluation of the Seattle Minimum Wage Ordinance.

Phil Armour, PhD, Associate Economist, Professor – MATCHED
RAND Corporation, Pardee RAND Graduate School

Philip Armour is an associate economist at the RAND Corporation and a professor at the Pardee RAND Graduate School. His research spans diverse areas of public policy, often focusing on disability and retirement policies in the US. His research has included the roles information can play in the Social Security system, employment responses to incentives in the U.S. disability system, the structure of disability and health benefits for veterans and active duty service-members, and definitional issues in measuring trends in income inequality. His work has employed techniques ranging from laboratory and field experiments to reduced form policy analysis to structural econometric methods. For his dissertation, Armour explored the effect of the Social Security Statement’s introduction on disability insurance application behavior and the labor supply of workers approaching retirement. He has worked as a summer associate for the Congressional Budget Office, a research associate for the Federal Reserve Bank of San Francisco, and a research assistant for a European Commission research agenda on social entrepreneurship in the EU. He earned an M.Sc. in econometrics from the London School of Economics and his Ph.D. in economics from Cornell University.

She has over 20 years of applied policy research experience and has held social and health policy research positions at academic institutions, research organizations, and state health and welfare agencies. She also has experience as a child protective worker and a psychiatric technician. Dr. Brucker’s work has been published in numerous peer-reviewed journals including Social Science Quarterly, Journal of Behavioral Health Services and Research, and Journal of Disability Policy Studies. Dr. Brucker received a PhD in Urban Planning and Public Policy from Rutgers University and a MPA in Social Policy Analysis from the University of Delaware.

Heather Campbell, PhD, Professor and Chair in the Department of Politics and Government
Claremont Graduate University – MATCHED

Heather Campbell is a full professor and Chair in the Department of Politics and Government at the Claremont Graduate University. Dr. Campbell is also Field Chair for Public Policy, and teach in the statistics and policy cores. Her PhD is in Public Policy Analysis, and has been a member of APPAM since the ’90s. Dr. Campbell attended graduate school at Carnegie Mellon University’s Heinz School, earning the MPhil and a PhD in Public Policy Analysis. Her dissertation was on telecommunications regulation, and focused on institutional design, in particular election versus appointment of public utility commissioners. Her first job was at Arizona State University’s School of Public Affairs where she went from Assistant Professor to tenured Associate Professor to Director of the MPA to Director of Graduate Studies there. Currently her area of research focuses on environmental policy. Topics include household water-conservation, aviation noise and environmental justice (EJ), toxics release inventory facilities and EJ, and a series of papers using agent-based modeling (ABM) to analyze complex causes of—and policy solutions for—environmental injustice. In addition, I have coauthored two books on environmental policy.

Jill Constantine, PhD, Senior Vice President & Managing Director, Human Services – MATCHED
Mathematica Policy Research

Jill Constantine is an expert in teacher compensation and quality, as well as access to college for low-income students. She has led several large-scale studies of federal policy initiatives, applying technical expertise in random assignment study designs, matching procedures such as propensity scoring, and advanced statistical modeling. Constantine directed the What Works Clearinghouse (WWC) for the U.S. Department of Education from 2010-2014, also serving as deputy project director for several years. The WWC assesses the quality of thousands of studies of education curricula, practices, and policies, and then summarizes the findings of well-designed studies in reports for educators, policymakers, and the general public. At the core of the WWC is a set of rigorous standards for research design; the high quality studies that meet WWC standards have strong causal validity.
