Listing

Before You Begin

To access the single paper listing you must have an APPAM [MemberClicks profile](#).

Returning Users:

- If you have registered for a prior APPAM event, please recover your existing account.
- If you are unsure if you have an account or how to access it, please reach out to the email below.
- Lapsed member profiles are restricted until APPAM resets the account.
- Contact membership@appam.org for assistance.

New Users:

- If you have never attended an APPAM event or do not have an APPAM profile, you must create one [here](#). You'll have the option to create a free non-member profile or purchase an annual membership.
- **Memberships is not required – select “No, thank you” on the membership dropdown if you wish to proceed as a free non-member profile.**

Please do not create a profile on behalf of someone else as the form requires confidential personal information.

As you are creating your submissions, we encourage you to check your submissions, complete panels - three or four papers along a conference. If you are interested, please contact the authors and see if they wish to have their paper on the panel. We hope this will encourage APPAM members and the public to submit papers. Found papers you want to connect with? Reach out to the paper's author using the email address associated with your paper. The listings will be updated daily until the submission deadline of October 15, 2024.

Recent advances in artificial intelligence (AI) have led to conversations about how AI will impact the labor market. AI is transforming the workplace by automating routine tasks providing data analysis, enhancing decision-making processes, and improving efficiency. There have been growing concerns by some that while AI will enhance and improve the labor market, that it will eventually negatively impact the job market by eliminating some jobs. There are also concerns about the national security risks that it can pose. This forum will bring together experts to discuss the advantages AI can bring and the challenges and risks AI can pose to the labor market.

mit a complete panel. While we still encourage individual paper submissions, we encourage you to submit a complete panel. If there is a paper in the listing in which you are interested, please contact the author. We are doing important work around the world. If you are interested in submitting a paper to the panel, please contact the panel organizer with your paper ID number as well as the submission ID number of the paper you are submitting.
